

Biosis Research Pty. Ltd., a leading firm providing consulting services in both Cultural and Natural Heritage, is seeking to appoint a Field Zoologist for a 6 month contract in our Melbourne Office.

Biosis Research has undertaken many natural and cultural heritage projects throughout southeast Australia and employs a highly experienced multi-disciplinary team that includes Zoologists, Archaeologists, Aquatic Ecologists, Botanists and GIS Operators. We have offices in Melbourne, Ballarat, Canberra, Sydney, Wangaratta and Wollongong.

Our Melbourne office is located just south of the CBD in Port Melbourne. This provides access to all the services of Melbourne without the hassle and costs of traffic and parking.

## **Field Zoologist**

The two main criteria for this position are good field/animal identification and writing skills. Your responsibilities will include participating in, conducting and managing projects, the production of technical reports and providing technical advice to our clients. Additional duties will include proposal writing, marketing and maintaining a profile in the professional community as a zoologist.

Applicants should have appropriate tertiary qualifications and/or field experience in zoology (preferably in eastern Australia). Previous consulting experience is not essential, but is desirable. Experience in managing projects and well-developed team skills (including excellent communication) will be well regarded. Competency with computers and a current manual driver's license are a must along with a keen desire to be part of a team of specialist consultants. Applicants must be prepared to travel throughout south-eastern Australia.

We offer a modern, fully equipped working environment, the opportunity to work within a highly experienced team and support staff. We have an established mentoring and professional development program to continue to develop your zoological and consulting skills.

We will offer an attractive starting salary commensurate with the level of experience of the successful applicant and all employees participate in a profit share program.

A position description is available upon request or from our website. Please visit our website at: [www.biosisresearch.com.au](http://www.biosisresearch.com.au)

To apply, please forward a copy of your resume with a covering letter that highlights your relevant experience, to:

Aaron Harvey, Manager, Melbourne Resource Group, Biosis Research Pty. Ltd., PO Box 489, Melbourne, Victoria 3207, Tel: 03 9646 9499 or [melbourne@biosisresearch.com.au](mailto:melbourne@biosisresearch.com.au). Applications will close on Monday, 13<sup>th</sup> September 2010

Please note: Australian residents / work permits only.
